An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 17 before the period insert --- hydroxide ---.

The following is an examiner's statement of reasons for allowance:

Claim 13 and claim 17 (by virtue of its "cover of one layer") require the composition as the outer layer. Statz only suggests the composition in the interior of the ball. The examiner erred in the last office action when stating Chen does not suggest wound balls. However, where Chen mentions wound balls (claim 1;col 2 line 59), he invariably requires the composition to in the core or center – not the cover. This coupled with the fact Chen does not subsequently/simultaneously add applicant's (C) makes a rejection over Chen unreasonable. The examiner's amendment harmonizes the metals of the two independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
